Greetings

Recruitment Officer

This letter is to express my interest in your company for the summer Internship program in 2020.

I am currently pursuing Integrated Course (B.Tech + M.Tech) in Information Technology with 8.45 CGPA from ABV- Indian Institute of Information Technology and Management, Gwalior.

I have advanced proficiencies in C/C++ and PYTHON programming language. With hands-on experience with these languages to create and implement software applications, I am confident I will be an asset to your organization. I have basic knowledge of Web/Application development also including CSS, HTML and JavaScript. My basics in core subjects including Operating Systems, OOPs, and Database Management Systems are also clear. I have excellent knowledge of Data Structures and Algorithms also and have been qualified for ACM-ICPC 2019 Amritapuri Regionals (on-site).

I have a keen interest in the system design of your organization and would like to personally observe and contribute to it with some new and fresh ideas. I would be thrilled to learn more alongside your cross-functional team of engineers and developers.

My enclosed resume expands on my coursework, projects, and campus involvement. As I prepare for a career in computer science, I am dedicated to gaining practical experience to complement my coursework. As an enthusiastic programmer being able to understand the problem and code the solution, I'm sure I would make an excellent candidate for your company.

Thank you for your time and consideration.

Looking forward to work with you!

Sincerely yours,

Sanjit Prasad
